SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier	
Trade name or designation of the mixture	GLASSBEND
Registration number	-
Synonyms	None.
Issue date	31-July-2019
Version number	01
1.2. Relevant identified uses of the	ne substance or mixture and uses advised against
Identified uses	3D printer filament
Uses advised against	None known.
1.3. Details of the supplier of the	safety data sheet
Supplier	
Company name	MCPP Netherlands BV
Address	Grasbeemd 19, 5705DE Helmond, The Netherlands
Telephone	+31 (0)492 210 210 (Office hours Mo Fr. 8:30 - 17:00)
Contact person	Product Compliance
e-mail	product.compliance@mcpp-europe.com
1.4. Emergency telephone number	+31 (0)30 274 8888, only for the doctor
	National Poison Information Center Utrecht, The Netherlands

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

This mixture does not meet the criteria for classification according to Regulation (EC) 1272/2008 as amended.

Hazard summary Not available.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Hazard pictograms	None.
Signal word	None.
Hazard statements	The mixture does not meet the criteria for classification.
Precautionary statements	
Prevention	Not available.
Response	Not available.
Storage	Not available.
Disposal	Not available.
Supplemental label information	None.
2.3. Other hazards	Not a PBT or vPvB substance or mixture.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information Chemical name	%	CAS-No. / EC No.	REACH Registration No.	Index No.	Notes
Styrene butadiene copolymer	90 - 100	9003-55-8	-	-	
Classification:		-			
Other components below reported to the second secon	table < 0,1				
Composition comments	The full text for all H	I-statements is disp	played in section 16.		
SECTION 4: First aid meas	ures				
General information	Ensure that medica protect themselves.		are of the material(s) involved	l, and take precau	tions to
4.1. Description of first aid meas					
Inhalation			ct. If exposed to excessive leveloging of other symptoms de		mes, remove
Skin contact		a physician for ren	cool molten material adhering noval of adhering material and		
Eye contact	Not likely, due to the 15 minutes and see	e form of the produ k medical attention	ct. If hot product contacts eye immediately.	e, flush with water	for at least
Ingestion	Not likely, due to the				
4.2. Most important symptoms and effects, both acute and delayed	Exposure may caus	e temporary irritatio	on, redness, or discomfort.		
4.3. Indication of any mmediate medical attention and special treatment needed	Treat symptomatica	lly.			
SECTION 5: Firefighting m	easures				
General fire hazards	No unusual fire or e	explosion hazards n	oted.		
5.1. Extinguishing media Suitable extinguishing media	Water fog. Foam. D	ry chemical powde	r. Carbon dioxide (CO2).		
Unsuitable extinguishing media	Do not use water je	t as an extinguishe	r, as this will spread the fire.		
5.2. Special hazards arising from the substance or mixture	During fire, gases h	azardous to health	may be formed.		
5.3. Advice for firefighters	Colf contained bree	thing apparatus on	d full protoctive elething must	he worn in ease	offire
Special protective equipment for firefighters	Sen-contained brea	thing apparatus an	d full protective clothing must	be worn in case (or me.
Special fire fighting procedures	Move containers fro	om fire area if you c	an do so without risk.		
Specific methods	Use standard firefig	hting procedures a	nd consider the hazards of ot	her involved mate	erials.
SECTION 6: Accidental rele	ease measures				
6.1. Personal precautions, protec		• • •			_
For non-emergency personnel	keep unnecessary	personnel away. Fo	or personal protection, see se	ction 8 of the SDS	5.
For emergency responders	Keep unnecessary SDS.	personnel away. Us	se personal protection recom	mended in Section	n 8 of the
6.2. Environmental precautions	•		rses or onto the ground.		
5.3. Methods and material for containment and cleaning up	Sweep up or vacuu For waste disposal,		collect in suitable container for he SDS.	r disposal.	
6.4. Reference to other sections	•		of the SDS. For waste dispos	al, see section 13	of the SDS.
SECTION 7: Handling and	storage				
7.1. Precautions for safe	Observe good indu	strial hygiene practi	ces		

7.1. Precautions for safe handling	Observe good industrial hygiene practices.
7.2. Conditions for safe storage, including any incompatibilities	Store in tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).
7.3. Specific end use(s)	Not available.

SECTION 8: Exposure controls/personal protection

Recommended monitoring procedures	Follow standard monitoring procedures.
Derived no effect levels (DNELs)	Not available.
Predicted no effect concentrations (PNECs)	Not available.
8.2. Exposure controls	
Appropriate engineering controls	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment

General information	Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.	
Eye/face protection	Wear safety glasses with side shields (or goggles).	
Skin protection		
- Hand protection	Wear appropriate chemical resistant gloves.	
- Other	Wear suitable protective clothing.	
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment.	
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.	
Hygiene measures	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.	
Environmental exposure controls	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.	

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance		
Physical state	Solid.	
Form	filament	
Colour	Color depends on product specification	
Odour	Slight.	
Odour threshold	Not available.	
рН	Not available.	
Melting point/freezing point	170 - 230 °C (338 - 446 °F)	
Initial boiling point and boiling range	Not available.	
Flash point	Not available.	
Evaporation rate	Not available.	
Flammability (solid, gas)	Not available.	
Upper/lower flammability or exp	losive limits	
Flammability limit - lower (%)	Not available.	
Flammability limit - upper (%)	Not available.	
Vapour pressure	Not available.	
Vapour density	Not available.	
Relative density	Not available.	
Solubility(ies)		
Solubility (water)	Not available.	
Partition coefficient (n-octanol/water)	Not available.	
Auto-ignition temperature	Not available.	
Decomposition temperature	Not available.	
Viscosity	Not available.	
Explosive properties	Not explosive.	
Oxidising properties	Not oxidising.	
9.2. Other information		
Density	0,99 - 1,02 g/cm³	
SECTION 10: Stability and	reactivity	
10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.	
10.2. Chemical stability	Material is stable under normal conditions.	

SECTION 11: Toxicologics	
10.6. Hazardous decomposition products	No hazardous decomposition products are known.
10.5. Incompatible materials	Strong oxidising agents.
10.4. Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials.

SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.
Information on likely routes of e	xposure
Inhalation	Based on available data, the classification criteria are not met.
Skin contact	Based on available data, the classification criteria are not met.
Eye contact	Based on available data, the classification criteria are not met.
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.
Symptoms	Exposure may cause temporary irritation, redness, or discomfort.
11.1. Information on toxicologic	al effects
Acute toxicity	Not known.
Skin corrosion/irritation	Based on available data, the classification criteria are not met.
Serious eye damage/eye irritation	Based on available data, the classification criteria are not met.
Respiratory sensitisation	Based on available data, the classification criteria are not met.
Skin sensitisation	Based on available data, the classification criteria are not met.
Germ cell mutagenicity	Based on available data, the classification criteria are not met.
Carcinogenicity	Based on available data, the classification criteria are not met.
(as amended)	nance on protection against and preventing risk relating to exposure to carcinogens at work
Not listed.	
Reproductive toxicity	Based on available data, the classification criteria are not met.
Specific target organ toxicity - single exposure	Based on available data, the classification criteria are not met.
Specific target organ toxicity - repeated exposure	Based on available data, the classification criteria are not met.
Aspiration hazard	Based on available data, the classification criteria are not met.
Mixture versus substance information	No information available.
Other information	This product has no known adverse effect on human health.
SECTION 12: Ecological in	oformation

SECTION 12: Ecological information

12.1. Toxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.	
12.2. Persistence and degradability	No data is available on the degradability of any ingredients in the mixture.	
12.3. Bioaccumulative potential		
Bioconcentration factor (BCF)	Not available.	
12.4. Mobility in soil	No data available.	
12.5. Results of PBT and vPvB assessment	Not a PBT or vPvB substance or mixture.	
12.6. Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.	

SECTION 13: Disposal considerations

13.1. Waste treatment methods		
Residual waste	Dispose of in accordance with local regulations.	
Contaminated packaging	Empty containers should be taken to an approved waste handling site for recycling or disposal.	
EU waste code	The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.	
Disposal methods/information	Collect and reclaim or dispose in sealed containers at licensed waste disposal site.	
Special precautions	Dispose in accordance with all applicable regulations.	

SECTION 14: Transport information

```
ADR
```

14.1. - 14.6.: Not regulated as dangerous goods.

RID

14.1. - 14.6.: Not regulated as dangerous goods.
